

UPGRADE TO ENERGY STAR

ANNUAL SAVINGS¹

UPGRADING FROM:

- = Single pane
- = Double pane, clear glass

¹ U.S. Department of Energy. Savings estimates based on population-weighted regional annual energy use for a 2,000 sq. ft., single-story, detached house with 300 sq. ft. of window area, gas heat, and electric air conditioning. Estimates use the Energy Information Administration's average gas and electricity prices from October 2007 through September 2008. Double pane, clear glass may not be applicable to all jurisdictions due to mandatory building codes. Actual savings will vary by climate region and home characteristics.
